Assignment 4

Datasets:

1. Choose one dataset ideal for tree visualization.
2. Choose one dataset ideal for graph visualization.
3. Briefly describe each dataset including the source of the dataset and what nodes, and edges represent.

Visualization:

1. Visualize the tree dataset utilizing at least two different layouts.
2. Visualize the graph dataset utilizing at least two different layouts.

Submission Instructions

1. Include all workings in a single python notebook file
    - The GitHub Pages link to your visualization
2. Submit the python notebook ipynb file named A4_2023xxx.ipynb

Note

- Please check the submission due date on Microsoft Teams.
- Assignments submitted within 7 days after the due date receive marks deduction.
- Assignments submitted more than 7 days after the due date are not graded.
- Marks are deducted for not following the proper naming convention and other instructions.
